## **Michigan Pressure Washing Company - Power Washing Contractor**

The president of the National Association of Real Estate Appraisers says you can add as much as 5 - 10 percent to the value of your home by presenting a good first appearance. There's no better or more affordable way to improve the appearance of a home than pressure cleaning the home's exterior. Houses with vinyl siding, brick or stucco can all be pressure washed if done correctly.

And to make things clear, people located in different parts of the country, and different parts of Michigan for that matter, sometimes use different lingo to describe what they want. Some people say power washing and some pressure washing, but the bottom line remains the same no matter how you say it, you need your house, driveway, sidewalk or some part of your house like a deck or roof cleaned to bring back a fresh appearance.

Mobile Pressure Wash has been growing and expanding its pressure washing services throughout Michigan in order to provide home owners and business owners with the quality workmanship only available through a professional power washing contractor. That way, if you want to sell or refinance your home, the value of your investment will be increased from the great first impression the appraiser gets when they drive up to your home.

To acquire our power washing services, visit Power Washing Estimates page and complete the form. A sales representative will contact you shortly to schedule an appointment to provide you with power washing prices and a time we can get started cleaning your house, deck, driveway or whatever it is you need pressure washed.

## **Roof Cleaning Services / Cleaning Shingles**

If your roof is covered with black stains and streaks, you should know that isn't a sign that your roof is worn out or that it needs to be replaced. The stains are coming from a form of algae called *Gloeocapsa Magma* that is growing on your shingles and can be safely removed using low pressure roof cleaning techniques.

These stains have caused many home owners across the country to spend thousands of dollars having their roof replaced when they could have restored it to a like new finish for only a few hundred. So before you contact a roofing contractor for an estimate, you should call us for a free evaluation to determine if the roof you already have can be saved.

As for how cleaning shingles is done, we use a process where practically no water pressure is applied in conjunction with professional strength roof cleaners that are specifically

designed to eliminate the algae without harming the shingles.

These cleaners and the techniques we use will remove the black streaks and stains along with any dirt and mildew that has accumulated on the shingles, leaving you with a beautiful roof and a whole lot more money in your pocket.

This type of cleaning practice also protects your home from damage that high pressure washers can cause. So there is much less risk involved than with traditional power washing and way less than with roof replacements.

Exposing your home to less risk of damage while increasing value and saving money in the process are just a few of the many advantages to hiring an experienced roof cleaning company such as Mobile Pressure Wash to do the job.

## **Michigan Deck Cleaning, Wood Restoration, Power Washing**

here is nothing more enjoyable than spending time outdoors with friends and family. And there's no better place to hang out than right on your deck. Cooking out, laying out, and just simply relaxing are just some of the outdoor activities you can do on your deck. To enjoy these activities to the fullest, make sure your deck is clean & sealed properly, you don't want to change clothes just to sit out on the deck!

Deck cleaning is not difficult if you have the right equipment, time and know the basics of how to treat wood and handle a pressure washer. But for most people, putting together this combination of requirements for cleaning decks is about as hard as doing the work.

Power washing decks is only part of what really needs to be done to get a complete wood restoration effect. To complete the process, the deck also needs to be covered with a quality wood sealer.

The best solution for cleaning decks and performing the wood restoration steps necessary to protect your deck is to hire an expert power washing contractor to clean and treat your deck with professional grade cleaning products and sealers. Hiring an experienced power washing contractor can make a huge difference in the overall restoration and appearance of your wood deck.

If you are ready to improve the condition of your deck and you live in the state of Michigan, you can get a free Deck Cleaning Estimate from a seasoned pressure washing contractor that knows how to restore the beauty of your wood deck and apply the proper wood sealers and stains to help your deck last for years to come!
